<i>Do you conduct internal quality audits?</i>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<i>Do you conduct external quality audits?</i>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<i>Do you allow customers to conduct site visits/ audits?</i>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<i>Will Gast Manufacturing enter into customer specific quality agreements?</i>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Due to the large number of customers served by Gast Manufacturing, we are unable to enter into acknowledgements or agreements relative to specific customer quality programs or requirements. Doing so would create too much complexity to effectively manage a quality program. Gast Manufacturing is ISO-9001 certified. The provisions for ISO certification are robust, very detailed, and reach across all functional areas of the business. In order to achieve and maintain this certification Gast Manufacturing is diligent in the deployment, sustainment, and advancement of our quality procedures. Any customer specific requirements not embodied in the ISO-9001 standards should be discussed with your regional sales representative. We would be happy to review these requests as needed and work collaboratively to find a mutually agreeable solution.

Kind Regards,

Eric Chack
Director of Operational Excellence
